DETAILED ACTION

Response to Amendment

1. Applicant's submittal of an amendment was received on February 25, 2005, wherein claims 1 and 3 were amended, and claim 2 was cancelled. The allowable subject matter of claim 2 was incorporated into claim 1.

Allowable Subject Matter

2. Claims 1 and 3-8 are allowed over the prior art.
3. The following is an examiner's statement of reasons for allowance: In the Examiner's opinion, a coupling for removably joining a first and second baby stroller to form a tandem baby stroller, wherein the first and second coupling members each have a first operational position and a second stowed position wherein said first and second coupling members can be moved from said first operational position to said second stowed position was not anticipated by the prior art, nor would it have been obvious to a person of ordinary skill in this art. As shown in Figure 7, both the first and second coupling members have a first operational position and a second stowed position, wherein the coupling member is folded away to the stowed position. The prior art, specifically, Redmond et al. ('938) and Aaron et al. ('892) disclosed a fastening device to couple a first and second baby stroller together, but did not disclose wherein the coupling members have a first operational position and a second stowed position.
